Dear Parent/Legal Guardian:

To identify your child's present level of performance and to determine if there is an ongoing need for special education services, your input is a significant component in this process. Please answer the following questions which address information that will help in the development of your child's education plan:

1. What are your child's strengths (for example, social, academic, talents, etc.)?

2. Describe the improvement, if any, that you have observed since your child qualified for special education services.

3. In your opinion, does your child currently enjoy or dislike school? Why?

4. At this time, what concerns do you have in regards to your child (for example, academically, emotionally, and/or behaviorally)?

5. Does your child currently take any medication? If so, please list the medication/s and explain why it is needed (for example, 5 mg. Ritalin--used to treat ADD/ADHD).

6. Has anything recently occurred that may be influencing your child's performance at school (for example, moving to a new home, loss of a pet, divorce of parents, death of a loved one, change in medication, etc.)?

7. Is there any other information that you would like us to know?
